Item	Speaker	Content {Meeting Tweeter Ver 3.0 (U001R03) }
001	System	Meeting Started
002	Jason	I will start the meeting with some ground rules.
003	Jason	Rule number 1, Do not get angry.
004	Jason	Rule number 2, Coordinator can issue Yellow card. Two Yellow cards equal one penalty.
005	Jason	Rule number 3, Do not say Danger Words. Danger words are "cannot work", "stupid/lousy idea" and etc. Instead say "Strength is", "Good thing is", "Weakness is", "Problem is" and etc.
006	Jason	Rule number 4, Do not insult or verbal attack on anyone or any race or any religion in the meeting.
007	Jason	Rule number 5, Everyone must AGREE TO DIS-AGREE, but there must be a reason to disagree.
008	Jason	Next item on the agenda is update on SIDA joining IFIA. You can check the status in IFIA website, https://www.ifia.com/en/ifia-member/ifia-full-members/item/151-singapore-sida
009	Jason	IFIA has recently introduce a TTC (Technology Transfer Center) system. If inventor has ann invention, he can submit it to TTC through their "National Association". His invention will be broadcasted to companies or investors will linkage to IFIA. If any of the companies are interested, they can response. Then IFIA will linkup both parties to meet. There will be some cost involved, registering fee is US\$20 and US\$100 for inventor to receive the respondent detail.
010	Tan	Is it US\$100 for every respondent or all respondents ?
011	Jason	The document did not said.
012	Eddie	Likely to be each respondent detail cost US\$100.
013	Jason	I email IFIA and asked if SIDA can become a "National Association" in Singapore. They redirected my email to another person in charge. But the fellow said he's not in charge and will pass the request to the correct person. I have not hear from them yet.
014	Jason	Next, I like to bring out the decision to change SIDA constitution by adding two more objectives. This is due to SIDA logo change. I've come up with the meeting resolution document. President, Vice President and I have signed. Need George to sign also, but he is sick today. So I will bring this to next SIDA meeting.
015	Jason	Next is the update on FOS-IPOS (Friends of SIDA - Intellectual Properties of Singapore). The letter mail to IPOS Chief Executive Mr Daren Tang has been send. We will wait for their reply. I will follow up again on 21 Jul 2016. If there is no reply, I will send another same letter in registered mail to keep a paper trail.
016	Eddie	I recommended against sending the registered mail because IPOS may take offense.

Item	Speaker	Content {Meeting Tweeter Ver 3.0 (U001R03) }
017	Jason	Point taken.
018	Jason	Going to next item, Project Trolley has just started. The first meeting was held on 18 Jun 2016. All Co-inventors (Tan Yin Leong, Xiu Feng, David Chen, Nicky Teo and Jason Leow) have agreed on the condition and signed the agreement. JianHao also joined in as an observer. 5 inventions was proposed to solve the same problem.
019	Jason	Next item is new visitor. We were expecting a visitor, Mr Shan, to come for this meeting. But he was sick today, so I'll skip this section.
020	Jason	Next is the project initiated by Nicky to help Loyang TuaPeiKong. I have came up with a proposal but since Nicky is not here today, I will put it to the next meeting.
021	Jason	FOS-IV (Friends of SIDA - Intellectual Venture) is the next topic. I have prepare a presentation slide that is meant for IV if they are willing to meet with us.
022	Jason	(Presentation on FOS-IV)
023	Eddie	Why don't you send me the information on Intellectual Venture. Let me see if I can help first before you do anything.
024	Jason	Ok, I will send you the detail. If you can help SIDA to connect with IV, that will be great. I will follow up with you in the next meeting.
025	Jason	Last second item is FOS-CHINA. Recent TV news are all talking about UK exiting EU, there are two news that many may have left out. Check the video link below. https://www.youtube.com/watch?v=ZwdAPyOKQCA https://www.youtube.com/watch?v=vcJp8HnSAWg
026	Jason	These show that China is rising rapidly and SIDA cannot ignore its power in intellectual properties. We need to start looking at China and understand their Patent system. I would suggest the following area need to look into.
027	Jason	1. To take advantage of Singapore Bilingual (English and Chinese) education.
028	Jason	2. To decide SIDA Chinese name. a. 新加坡发明者协会 b. 新加坡发明家协会 Please go back and think about the name and we will do a voting in next meeting to decide.
029	Jason	3. To incorporate Chinese into SIDA website.
030	Jason	4. To understand China Patent system.
031	Jason	5. To empower SIDA Inventors to learn and apply for China Patent themselves.
032	Jason	6. To connect with China Patent office through IPOS.
033	Tan	I agreed, we must look at China.
034	Jason	I like to ask everyone to go back to do some homework on China Patent system. Share it in subsequent SIDA meeting.
035	Jason	Last item is Invention Gossips. I will run three video (Smartphone microscope, Eco Cooler and Zubit Magnetic Shoe Closure). https://www.youtube.com/watch?v=X4IKotOrfXE https://www.youtube.com/watch?v=jPuh8IFblzQ https://www.youtube.com/watch?v=FD5fKHpmMmU
036	Jason	If there is nothing else, I declare this meeting ended.
